Pachinko vs. Pachislo

At the bottom left is a Pachinko machine. It is gravity driven. It utilizes steel ball bearings to make a lot of noise and possibly ring a jackpot bell. It is not a slot machine. **It is legal to own and operate in the State of California.** We will gladly repair Pachinko machines.

At the bottom right is a Pachislo machine. It is a "skill-stop" slot machine. It accepts coins or tokens. **It is NOT legal to possess in the State of California** because it is less than 25 years old. We refuse to service Pachislo machines.
