## Donate

If you have a machine working or not, and selling is not an option, consider donating it to California Antique Slots, Inc. We are always searching for original, replacement parts for other machines. We will personally pick it up from you only in Los Angeles, Ventura, Santa Barbara and Kern counties.

If you have slot machine parts, manuals, hardware, tools or stands, we will be glad to pick those up (at our expense) as well! Call or text us at the above number to arrange your donation today.

## Purchase

Have a machine to sell? Whether it is working or nonworking, we are interested in purchasing your slot machine. Please let us know if it is a mechanical, electromechanical, video poker, electronic or a Pachinko game. If you have more than one slot machine, we will consider buying all of them.

Describe it to us. Better yet, text some high-resolution (sharp) photos of it. Please use: 805-501-6765 to send any pictures. We will pay a fair price and will personally pick it up from you, or we will have it picked up and shipped (at our expense) to us. Call or email us today.
