Our Philosophy - Our Creed

What we do:

We buy, sell, repair, and maintain a piece of nostalgia: your collectible antique mechanical machine... something very important to you and your atmosphere of home and comfort. However, what we really do is bring peace of mind through our service, technical prowess and our sense of excellence in all that we do.

What you receive:

You will always get dedicated, one-on-one service with friendly explanations: legal, caring, concerned, coupled with a sense of humor at a fair price and detailed invoice.

Why you should choose us:

We are local, available by phone and email, text and fax and will be there beyond any sales or service call to answer questions or to simply "talk shop."

Positive thinkers:

We treat others the way we wish to be treated; with respect, dignity, and fairness.

Word of mouth:

Tell others about us! That is the most powerful testimony of all... if you receive excellent service, let your friends know. If you receive poor service, WE would like to know that, too!

We are personable:

We are about people. We are about caring for your collection. However, we see only people in this business: you, the client.
